

FRANCE

**Intervention de la délégation française
après l'adoption de la déclaration finale de la
4^{ème} Conférence sur l'entrée en vigueur du TICE
(New York, 21-23 septembre 2005)**

**Intervention of the French delegation
Following the adoption of the final declaration of
the 4th Conference on the entry into force of the
CTBT (New York, 21-23 September 2005)**

France fully supports the entry into force of the CTBT. In addition, the extent of the decisions taken by France in the field of nuclear disarmament brings her to consider debates on that topic seriously and rigourously. I recall that the sole commitments of France in that matter are those of article VI of the Treaty on non-proliferation on nuclear weapons. France regrets that the draft declaration of this Conference does not reflect this in an appropriate way.
